Borders

Borders

All of our Border patterns that are stocked as running yardage with the embroidery beginning 10 inches from the selvage. Our patterns are vertically symmetrical in that the same roll of fabric can be used as right side and left side drapes.

Our patterns can be customized by altering embroidery colors, stitch styles, or changing the way the pattern lays outs on the fabric. Motifs can be enlarged or made smaller.

Designers can submit their own designs. Almost anything is possible! We provide CADs and strike offs for approval.
